K-Vesta Handle

K-Duro Handle

KAWNEER INTRODUCES A NEW SUITED HANDLE RANGE TO ENSURE UNIFORMITY

Consistency is critical in modern architecture. That's why Kawneer UK has launched a full range of architecturally inspired handles developed for Window, Door and Sliding Solutions. They provide a unified look whilst delivering optimum performance.

The new Suited Handle Range is compatible with the AA[®]720 Standard and AA[®]720 SL Slimline Casement Windows, AA[®]720 Tiltturn Window, AA[®]3720 Folding/Sliding Door, AA[®]3572 Lift/Slide Door and AA[®]720 Door. They come in a vast range of finishes, including stainless steel, and can feature any specific painted hardware to match 450 RAL finishes. As a result, different products used within the same residential settings can now have a uniform design and colourful appearance of hardware.

Meet the Family: K-Vesta and K-Duro

Inward and Outward Opening Windows, Hinged Doors, Bifold, Sliding and Lift/Slide Doors can be equipped with K-Vesta, an elegant modern design available in 450 RAL colours, including textured finishes providing specifiers with the option of high-quality window and door furniture with matching finishes and styles. The K-Duro handle is a modern stylish handle design manufactured in stainless steel.

Stunning and Secure Doors and Windows

Tested in line with PAS 24, enhanced security is also provided for all handles. The handles have also been tested in line with the most severe corrosion resistance and weather testing in line with the highest quality standards. The K-Duro has also been tested for high frequency use of 200,000 cycles suitable for high frequency use i.e., public areas, sport and leisure facilities.

Thanks to the integrated spring system, the handle always returns to its original starting position, even after exhaustive use. The product features an integral click system that can be rotated 360° in four stages of 90° each.

About Kawneer UK

Kawneer UK manufactures high-performance aluminium façade products including curtain wall and unitised systems, commercial entrance doors, framing systems, windows and sliding solutions at its purpose-built manufacturing facility in Runcorn, Cheshire.
